

REMINGTON SW

Product Catalogue 2025/2026

In nature, there is essentially no such thing as stopping. Yes, you can stand still, but the world keeps moving, and in relation to it, you are also moving, even while standing.

CONTENTS

Navigation made simple

03.

About us

We are a large company that designs reliable gear for hunters, anglers, and outdoor enthusiasts. This section is dedicated to the history and values of the Remington brand, reflecting our commitment to quality and innovation.

05.

Our Technologies

Remington's modern technologies are designed for hunting, fishing, trekking, and city use. This section highlights the key materials and solutions we apply in creating our durable and reliable signature gear of world-class quality.

11.

Summer Suits

Remington summer suits are light, durable, and breathable to ensure comfort even in intense heat. Perfect for hunting, fishing, and active outdoor life, letting you enjoy summer without unnecessary limits and any discomfort.

27.

Demi-season Suits

Remington demi-season suits are versatile and reliable, offering protection against wind, moisture, and cold. They are built for comfort and freedom of movement, making every hunting or fishing trip truly successful.

46.

Winter Suits

Remington winter suits are built to protect in the harshest weather, keeping warmth and reliability at low temperatures. They ensure comfort and freedom of movement, helping you stay active and confident even in severe frost.

58.

Thermal underwear

Remington thermal underwear is designed to reliably retain warmth and wick away moisture during any outdoor activity. It guarantees comfort and freedom of movement, serving as a dependable base layer in all weather conditions.

61.

Outerwear

Remington jackets are designed for outdoor adventures and everyday urban use, combining style with functionality. They protect against wind and moisture, ensuring comfort and freedom of movement in all conditions.

63.

Shirts

The Remington collection includes T-shirts, long sleeves, hoodies, and shirts designed for outdoor activities and everyday style. Light and practical, they provide comfort and freedom of movement in any situation.

67.

Pants

Remington pants combine durability and comfort, suitable for both outdoor activities and everyday use. They provide protection and comfort while giving full freedom of movement in all conditions.

69.

Shoes

Remington footwear is built for reliability and comfort, providing confident protection in any conditions. Durable materials and a secure fit deliver stability and freedom of movement across all terrains.

77.

Accessories

Remington accessories are practical additions to your gear: from hats, gloves, and backpacks to thermoses and rifle cases. They make every outdoor or urban outing more convenient, delivering functionality and comfort in every detail.

85.

Size Chart

Remington size charts help you choose the perfect fit for any activity. Designed with real body proportions in mind, they ensure comfort, freedom of movement, and accurate sizing for every season and type of clothing.

Confidence in Any Weather.

REMINGTON SW

PREPARED FOR EVERY SEASON, READY FOR EVERY CHALLENGE.

Manifesto

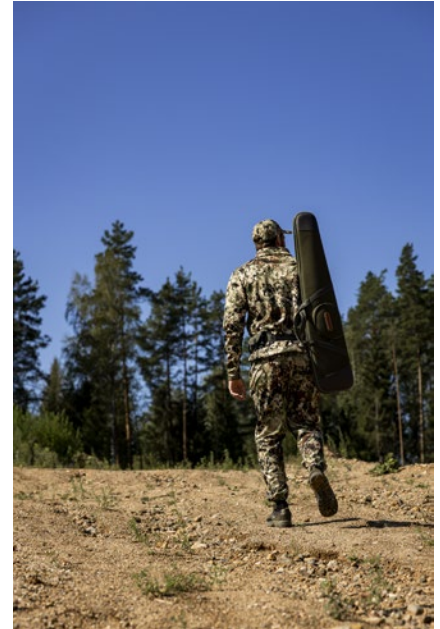

We build gear for people who choose to move. Rain, crosswinds, wet shorelines, chest-high brush — that's not a problem; it's the environment our apparel is made for. We design from the problem out: study real routes, field-test prototypes, and refine every seam and every piece of hardware. Respect for people and nature is non-negotiable; comfort and reliability are standard. With Remington SW, you stay confident every minute of the journey.

In short: fewer promises — more proven solutions.
One kit, many scenarios.

Why people choose us

Field-proven performance with honest specs; intuitive navigation that makes building a kit effortless; warmth, weather protection, and breathability balanced for real movement; durable construction that's repairable and built to last; responsive support before and after purchase. One kit — many scenarios, season after season.

Brand strategy

Our strategy is built on clarity and proof. We keep the line focused around Summer, Winter and Shoulder Season (Spring/Fall) — so choosing gear maps directly to real fishing, hunting, and trekking conditions. Each piece combines our technologies where they matter most: Climatic Extreme™ and Climatic Pro™ membranes for weather protection and breathability, ProHeat™ composite insulation where warmth is required, and DWR finishes to shed water. Selections are guided by simple iconography and temperature bands, then validated both in the lab and in the field.

Hunting is more than a passion — it's a test of strength, patience, and resilience. With Remington Synergy World, you step into the wild protected, confident, and ready for every challenge nature throws at you.

OUR TECHNOLOGY

Technology That Works With Nature, Not Against It

At Remington Synergy World, we know that true outdoor gear must be more than just clothing — it must be protection, comfort, and confidence in every situation. That's why we created a system of advanced technologies that work together, allowing you to stay focused on your adventure instead of worrying about the weather.

ProHeat insulation delivers reliable warmth even in extreme cold, remaining lightweight, breathable, and safe for the skin. Climatic membranes — Pro and Extreme — shield you from wind, rain, and snow, while maintaining vapor permeability, so your body stays dry and comfortable during movement. The durable DWR water-repellent finish reinforces this protection, making sure every drop of water rolls off without penetrating the fabric.

Our gear is designed to be light yet strong, resistant to moisture, breathable, and able to adapt to every season — from the freezing cold of winter to the burning sun of summer. With UV protection, technical outsoles, and high- performance insulation, every detail is created to withstand the challenges of nature.

Hunting, fishing, city, or tourism — wherever life takes you, Remington Synergy World technologies guarantee safety, reliability, and the comfort you can trust. This is gear made for men who stand strong in every season and every adventure.

Insulation

Fishing

Composite insulation. Premium, breathable, hypoallergenic insulation that mimics the loft of natural down. A blend of microfibers traps warm air while larger-diameter fibers add volume and resilience.

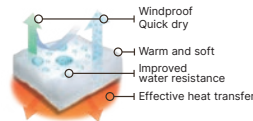

3-layer protection. A high-performance laminate with a thin microporous fluoropolymer membrane bonded between an outer textile and inner lining. Thousands of micro-pores per square centimeter deliver high waterproofness with true breathability.

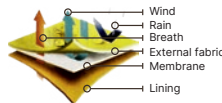

Weatherproof & breathable. A membrane built for windproof protection and maximum vapor permeability, keeping you comfortable across shifting weather and varied activity levels.

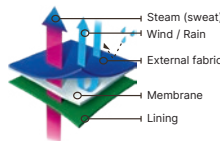

Durable Water Repellent finish. A long-wear water -shedding treatment applied to the fabric surface so moisture beads and runs off. Re-activates with proper care and helps outer layers dry faster.

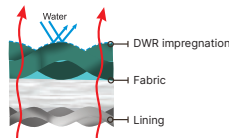

It provides high heat insulating properties per weight unit and a compact appearance product. ProHeat has a huge advantage — it is waterproof. All the products with this insulation completely restore their form after compression and deformation.

Those holes are very small in size, therefore, water molecules in vapor form are passing through the membrane, however, water drops due to their larger size do not.

Climatic Pro is perfect for intense outdoor activities such as hunting, fishing, etc. in any weather conditions

DWR is a layer of durable hydrophobic polymer that is applied to the material and forms a specific structure that reduces the surface tension coefficient. This causes water droplets to roll off the treated material without wetting it.

REMINGTON PATTERNS

Remington offers a wide range of camouflage patterns, each developed for specific environments and tasks. Every colorway is designed to maximize stealth, comfort, and adaptability, whether in forests, mountains, wetlands, or urban landscapes.

- **Black (010)**

Strict and universal, black is designed for tactical use, training, and situations requiring maximum neutrality. Combines perfectly with other camouflage items for a versatile look.

- **Dark Olive (903)**

A solid tactical shade for those who prefer simplicity and reliability. Perfect for demi-season gear, shooting ranges, and urban conditions where muted tones blend seamlessly.

- **Safari (922)**

Light sandy-beige tones adapted for open fields, dry grass, and steppe zones. Works great for hot climates and mountain areas where light shades dominate the environment.

- **Timber (991)**

A classic woodland camouflage with natural brown and green shades. Ideal for dense forests, mixed landscapes, and autumn hunting when foliage dominates the terrain.

- **Figure (993)**

Modern digital camouflage with mixed tones of green, gray, and beige. Universal in its use — from mid-season hunting to tactical applications, ensuring efficient blending in diverse conditions.

- **Yellow Waterfowl Honeycombs (995)**

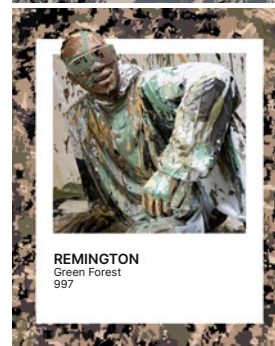

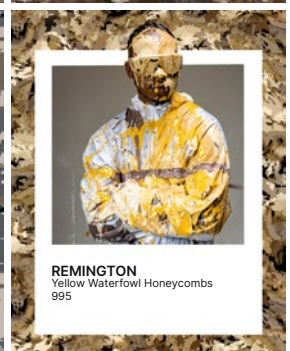

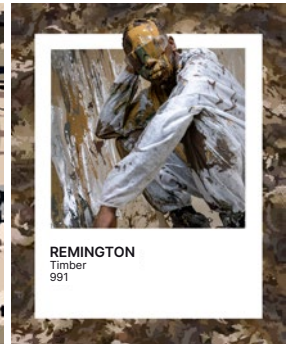

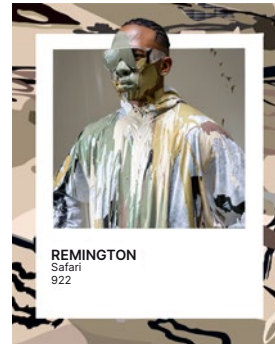

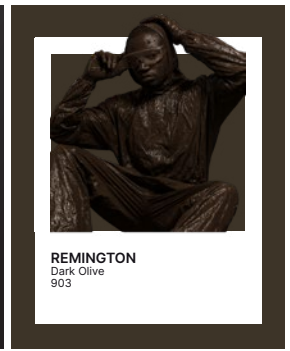

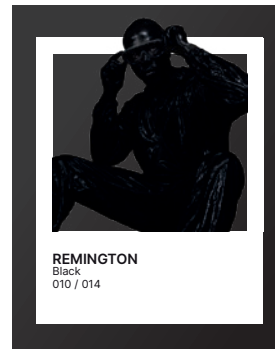

Bright yet functional pattern created for waterfowl hunting. The yellowish tones break up the silhouette on wetlands and reed areas, ensuring excellent concealment during duck and goose hunts.

- **Green Forest (997)**

A versatile camouflage designed for woodland hunting. Its deep green and earthy tones blend with foliage and moss, ensuring reliable concealment among trees and undergrowth.

- **Winter Forest (999 / 989)**

Specialized winter camouflage with muted grays, whites, and natural undertones. Designed for snowy forests and frosty landscapes, providing effective concealment in low temperatures.

SUMMER

GO LIGHT. GO STRONG. GO FAR.

SUIT ARIZONA

ART: RM 1082-922

The Arizona Suit is built for those who take every mission seriously. Designed with tactical precision, it provides protection, durability, and freedom of movement in the toughest conditions. The lightweight stretch fabric allows full mobility, while reinforced seams and practical pocket placement ensure reliability in the field.

With waterproof treatment and UPF 50+ protection, the suit keeps you shielded from both rain and sun. Its camouflage design blends seamlessly with natural surroundings, giving you the advantage of concealment and confidence during active operations.

This is more than just outdoor clothing — it's gear made for hunters, shooters, and tactical professionals who demand strength and functionality in every detail. The Arizona Suit stands as your armor in the wild, combining rugged endurance with modern design.

When seconds matter, details make the difference. The suit's ergonomic cut prevents restriction during dynamic movements, whether you are sprinting, crawling, or aiming in a fixed position. Every element is created to support focus and precision. Extended missions require equipment that doesn't fail. Arizona is designed to keep you comfortable and dry during long hours in the field, reducing fatigue and allowing you to concentrate fully on your objective.

922

Remington Boots

breathable and lightweight, this camouflage tee complements the Arizona Suit perfectly. Made of durable fabric, it keeps you comfortable during hunting, hiking, or summer leisure, while the pattern ensures seamless integration with outdoor gear.

SUIT ALABAMA NEW PROFESSIONAL

ART: RM 1057-995

The Alabama Professional Suit is more than just hunting apparel — it is a reliable companion for all your outdoor activities. Crafted with a focus on both performance and comfort, it meets the demands of hunters, travelers, and adventurers who spend long hours in nature. The suit's lightweight construction allows you to move freely, while the breathable fabric ensures comfort even during the hottest summer days. Whether hiking through dense forests, waiting in a hunting spot, or exploring new trails, this suit adapts to your every move.

Built for durability, the Alabama Professional Suit is made from high-quality materials that withstand active use. Its ergonomic cut supports natural body movements, reducing fatigue during long expeditions. Reinforced details add to its longevity, making it a practical investment for those who value gear that lasts.

One of the key advantages of this model is its carefully designed camouflage pattern. Blending seamlessly into natural landscapes, it provides the hunter with discretion and confidence, while also serving as a stylish choice for travelers. The pattern not only hides you in the field but also reflects the professional character of the Alabama line.

Versatility is at the heart of the Alabama Professional Suit. While it excels in summer hunting conditions, it is equally well-suited for tourism, hiking, camping, and general outdoor leisure. With this suit, you are well-prepared for every summer adventure, combining reliability, safety, and style in one complete solution.

SUIT HOT SUMMER NEW

ART: RM 1065-993

The Hot Summer Suit is created for those who face the hottest days outdoors. Every detail of this model is designed to provide freshness, lightness, and freedom of movement. The stretch fabric follows your every motion, while strategically placed ventilation zones allow air to circulate, helping the body stay cool even under intense heat.

Functionality is another strength of this suit. With a total of 8 practical pockets, you always have space to carry the essentials at hand, whether you're on a hunt, hiking, or traveling. The ergonomic design ensures that even when fully equipped, you remain mobile and comfortable.

Baseball Cap NEW
Art: RM 1556-993

Remington T-shirt

Art: RM 1307-993

The Remington T-shirt is a breathable, lightweight layer that perfectly complements the Hot Summer Suit. Its durable fabric and matching camouflage ensure comfort and style for hunting and outdoor activities.

Special attention has been given to protection. The material of the Hot Summer Suit shields you from the sun, while the stowable hood offers additional coverage when conditions change. This makes the suit not only a lightweight and comfortable solution but also a reliable shield against the elements.

Designed for temperatures ranging from +15 °C to +30 °C, the Hot Summer Suit proves to be an indispensable companion for the summer season. Whether your goal is hunting, tourism, or active exploration of nature, this suit will help you stay confident, cool, and prepared for anything.

993

Remington Boots

Art: RB 4436-993

The Remington Boots combine durability and comfort, making them the perfect footwear for the Hot Summer Suit. Waterproof material, reinforced sole, and reliable grip ensure protection and stability during hunting, hiking, and outdoor activities in warm weather.

SUIT HAY WAVE

ART: FM 1004-013

The Hay Wave Suit is created for fishermen and outdoor enthusiasts who value protection and reliability during summer adventures. With a fully waterproof design, it keeps you dry and comfortable even in heavy rain or when wading through wet terrain. Its Climatic Pro technology provides excellent resistance to water and wind, making it a dependable choice for unpredictable weather.

VEST REMINGTON

ART: FM 1402-903

The Remington Vest is designed for those who value convenience and full control over their gear. Created especially for fishing and outdoor activities, it provides a combination of lightweight comfort, durability, and practical organization.

The vest is equipped with multiple functional pockets of various sizes, allowing you to keep everything you need at hand: tackle, tools, accessories, or small personal items. Each pocket is thoughtfully placed for quick and easy access, saving valuable time during active use.

Made of durable and breathable material, the vest ensures long-lasting wear and comfort throughout the day. Its ergonomic cut does not restrict movement, whether you are casting, walking along the shore, or managing equipment. Adjustable straps and closures allow for a personalized fit, making the vest suitable for different body types and outdoor conditions.

The neutral olive color and robust design emphasize its practical purpose while blending seamlessly with other gear. The vest is not just a convenient piece of clothing — it is an essential tool for fishermen, hunters, and outdoor enthusiasts who want efficiency, mobility, and reliability in one product.

In addition to functionality, the vest also enhances your confidence in the field. By keeping all essentials organized and within reach, it allows you to focus entirely on the process — whether that is fishing, hunting, or exploring the outdoors. With the FM 1402-903 Vest, you are always ready for action, no matter the conditions.

DEMI-SEASON

SEASON OF CHANGE. SEASON OF POWER.

SUIT MOUNTAIN RANGE

NEW

ART: RM 1028-993

The Remington Mountain Range suit is designed for those who challenge the heights and demand absolute reliability from their gear. Created for mountain trails, steep slopes, and long expeditions, this suit combines advanced fabric technologies with functional design, ensuring maximum protection and comfort in ever-changing conditions.

Crafted from lightweight yet durable stretch material, it provides full freedom of movement without sacrificing strength. The waterproof and windproof membrane shields against rain, snow, and sharp mountain gusts, while the breathable structure keeps you dry inside, even during high activity. With UPF 50+ sun protection, the Mountain Range suit ensures safety in open spaces at altitude.

Special ergonomic tailoring adapts to the body's movement, helping conserve energy on long climbs. Multiple spacious and functional pockets allow you to keep essential gear within reach — from navigation devices to compact tools. Reinforced areas extend the durability of the suit, making it ready for harsh terrain and heavy loads.

993

Rifle Case
137×15×25×6

SUIT HIMALAYAN NEW

ART: RM 1014-995

The Remington Himalayan suit is created for those who demand maximum protection and comfort in the most challenging conditions. Its durable, multi-layered fabric shields against wind, moisture, and sudden temperature drops, making it a reliable choice for autumn and early winter expeditions. The advanced camouflage pattern is designed to seamlessly merge with mountain landscapes, rocky terrains, and dense forests, giving the hunter the advantage of invisibility.

Inside, the suit offers breathable insulation that keeps warmth in without restricting movement or causing overheating. Elastic inserts and an ergonomic cut ensure full freedom of action, whether you are climbing, stalking, or lying in wait. Practicality is at the core — with multiple pockets for gear, reinforced areas for durability, and water-repellent treatment that keeps you dry during unpredictable weather.

Built for resilience, the Himalayan suit adapts to extreme environments, supporting long hunts, demanding hikes, and outdoor missions where reliability matters most. Every detail is engineered to provide balance between tactical functionality and comfort, helping you focus on your goal and not the conditions around you.

This suit is more than clothing — it's reliable armor for every hunter who values precision, strength, and readiness. Tested in the wild, it provides the confidence to face the unknown, keeping you protected and fully equipped in every scenario.

The Himalayan is designed for those who don't retreat when conditions become tougher. It's a choice for hunters and adventurers who see challenges not as obstacles, but as opportunities to prove their endurance and character.

ART: RM 1031-991

The Remington Night coyote suit is designed for those who refuse to compromise between comfort and functionality during demi-season hunting. Its advanced camouflage pattern adapts to wetlands, open fields, and forest edges, providing reliable concealment in a variety of terrains.

991

SUIT MOUNTAIN RANGE **NEW**

ART: RM 1028-995

The Remington Mountain Range hunting suit is a professional solution for hunters and outdoor enthusiasts who value comfort, durability, and effective camouflage. Designed specifically for the summer season, this model ensures maximum functionality in warm conditions, allowing you to stay focused on your goal.

The Yellow Waterfowl camouflage pattern is not only visually striking but also highly practical. Its yellow-brown palette breaks up the human silhouette, blending seamlessly with reed beds, dry grasses, and wetland environments.

995

Remington Raincoat **NEW**

Art: FM 4400-995

The Remington PU Waterproof Yellow Waterfowl Honeycombs rain poncho is made of durable polyurethane that provides 100% protection from moisture and wind. The elastic material is comfortable to wear and resistant to wear and tear, while the loose fit does not restrict movement and suits different body types.

This makes the suit especially effective during waterfowl hunting, providing excellent concealment even at close distances.

The suit is made from 100% high-quality polyester, which offers a unique combination of lightness, strength, and quick-drying properties. The breathable material prevents overheating and ensures comfort during intense physical activity. Even after prolonged wear, the suit retains its shape and functional qualities.

Special attention is given to the ergonomic cut: elastic cuffs, reliable zippers, and a comfortable fit guarantee freedom of movement in any hunting scenario. Whether you are on the move, lying in ambush, or handling gear, the suit adapts to your activity without restricting your motions.

WINTER

CONQUER THE COLD WITH REMINGTON.

SUIT LIFEGUARD III NEW

ART: FM 1011-405

The Remington Lifeguard III winter overall is designed specifically for fishing in harsh conditions. With a waterproof rating of 12,000 mm and breathability of 6,000 g/m²/24h, it provides reliable protection against moisture and comfort even during long hours on the ice.

The ergonomic cut and functional pockets allow convenient storage of essentials, while durable materials ensure longevity. Bright inserts enhance visibility and add confidence in any weather. This overall combines protection, practicality, and style, making winter fishing as safe and comfortable as possible.

Special attention is given to insulation: the modern material retains warmth effectively without restricting movement. This makes the suit ideal for active performance in the cold, ensuring freedom and confidence at any pace of fishing.

SUIT REFLEX INTERCHANGE 4 IN 1

ART: RM 1035-989

The Remington Suit Reflex Interchange 4 in 1 is a multifunctional winter set designed for hunters, fishermen, and outdoor enthusiasts who demand maximum performance in harsh conditions. Thanks to its unique interchangeable system, the suit provides four different wearing options, allowing you to adapt to changing temperatures and weather during the season.

The outer layer is made of high-tech waterproof and windproof fabric with a durable DWR coating, which reliably protects against snow, rain, and strong gusts of wind. At the same time, the material maintains breathability, preventing overheating and ensuring comfort during active movement.

999 / 989

Inside, the suit features a removable insulated lining with advanced Climatic Pro technology. This layer not only retains warmth even in severe frost but also efficiently wicks away excess moisture, keeping the body dry. The combination of layers allows you to remain comfortable at temperatures down to -35°C.

Remington Boots

Remington Thermal Underwear Intensive Camo

Art: RH 2017-935

Thermal underwear Remington Intensive Camo is a new model from the brand Remington. The material of the fabric is 88% polyester and 12% elastane. Inside, the fabric has a soft microfleece of 250 gsm, which allows you to keep warm at temperatures down to -35 degrees. The fabric of the product is thin, which makes the model invisible under the main clothing. The special structure of the fabric with an inner layer of microfleece allows you to effectively remove and redistribute moisture from the body during physical activity.

SUIT CYCLONE

ART: FM 1022-010

The Remington Suit Cyclone is designed for extreme winter fishing and outdoor activities, where maximum protection and warmth are critical. Built with Climatic Extreme technology, it provides reliable insulation, keeping the body warm in freezing winds and heavy snowfall. The innovative ProHeat lining enhances heat retention, allowing you to stay comfortable during long hours on the ice.

The outer fabric is completely waterproof and windproof, ensuring that moisture, snow, and cold gusts cannot penetrate inside. At the same time, the material maintains breathability, preventing overheating during physical activity. Reinforced seams and high-quality zippers guarantee durability and long-term performance, even under tough conditions.

Functional details such as a detachable hood, multiple spacious pockets for gear, and adjustable cuffs make the Cyclone suit a versatile and dependable choice for winter adventures. Its ergonomic fit ensures freedom of movement, while the high protective collar and secure closures provide additional safety against harsh weather.

SUIT PRO **NEW** HUNTING CLUB

ART: RM 1010-993

Remington Pro Hunting Club is an innovative winter costume that is made according to updated technology and meets all modern standards. Due to the high collar with a lining, as well as a heater that has the properties of goose down, the costume can withstand wide temperature ranges. In addition, the insulation does not deform at all during washing and wear and retains its original form.

993

Thermal Reflective
Art: RH 2014-010

NEW 3 IN 1 BLIZZARD

ART: RM 1055-993

The unique transforming suit consists of an outer jacket, semi-overalls, and a jacket-liner.

Straight-cut outer jacket. Climatic Extreme membrane that provides absolute windproof, and maximum vapor permeability. The elbow is protected by dense fabric. The liner jacket serves as additional insulation and, if necessary, can be removed. Comfortable cuffs with finger slits.

993

995

SUIT MR.IDE NEW TRAVEL

ART: FM 1075-010

The Remington MR. IDE TRAVEL winter suit is designed for active travel and fishing in harsh conditions. The Climatic Extreme membrane with 12,000 mm waterproofing and 8,000 g/m²/24h breathability reliably protects against moisture and wind, keeping you comfortable all day long.

Every detail of the suit is built for functionality: the integrated hood and storm collar shield from strong winds, ventilation inserts provide breathability, and 11 pockets offer convenient storage for essentials. Reflective elements increase safety, while shock-absorbing pads on the knees and back ensure comfort during active movement.

The bib overalls with suspenders and anti-slip snow gaiters provide a secure fit and protection from snow. An additional feature is the GoPro mount, allowing you to capture the best moments of your winter adventures. This suit combines durability, modern functionality, and comfort even in temperatures down to -30 °C.

3 IN 1 NEW BLIZZARD FIT

ART: RM 2055-993

The Remington 3-in-1 Blizzard Figure suit is a versatile transformer model designed for use in temperatures from 0 to -30 °C. The set includes two jackets: the first is an inner insulating layer, and the second is an outer layer that protects against precipitation, along with warm trousers. The outer layer is made of Climatic Extreme membrane with a breathability of 10,000 g/m²/24 h and a waterproof rating of 10,000 mm, reinforced with Oxford fabric inserts for enhanced durability.

993

995

Thermal Extreme
Art: RH 2015-301

SUIT SNAG

ART: RM 1046-903

The Remington Snag winter suit is made from soft, velvety polyester on the outside, providing silent movement. The suit features a loose fit and numerous adjustments. Elastic inserts and adjustable straps are located on the sides of the high-bib overalls, allowing it to fit well on any body shape.

903

THERMAL UNDERWEAR

STAY WARM, STAY ACTIVE.

REMINGTON THERMAL ACTIVE
EXPEDITION

For men - Art: RH 2016-934
For women - Art: RL 2016-934

Fleecy, elastic, well-fitting tissue creates a microclimate around the body. The synthetic composition of the fabric provides high vapor permeability, quick drying. Tight fit and flat seams for ease of movement and better thermoregulation. Used as a base layer.

REMINGTON THERMAL
EXTREME

REMINGTON THERMAL
UNDERWEAR INTENSIVE CAMO

Art: RH 2018-934

REMINGTON THERMAL UNDERWEAR
INTENSIVE CAMO

For men - Art: RH 2017-935
For women - Art: RL 2017-935

Thermal underwear Remington Intensive Camo is a new model from the brand Remington. The material of the fabric is 88% polyester and 12% elastane. Inside, the fabric has a soft microfleece of 250 gsm, which allows you to keep warm at temperatures down to -35 degrees. The fabric of the product is thin, which makes the model invisible under the main clothing. The special structure of the fabric with an inner layer of microfleece allows you to effectively remove and redistribute moisture from the body during physical activity.

REMINGTON THERMAL REFLECTIVE

For men - Art: RH 2014-010
For women - Art: RL 2014-010

High breathability returns its body's heat by 20% and allows to dry quickly. Has innovative technology of "smart" thermoregulation. This technology does not only preserve the natural warmth, but also removes excess moisture to the outside. The heat retention increases up to 20%. The advantage of REFLECTIVE technology is that heat resistance is achieved not by increasing the thickness of the insulation, but by use of reflective lining.

3XL	60-62	118-126	112-122	114-122	182-194
4XL	62-64	126-130	118-128	122-126	182-194

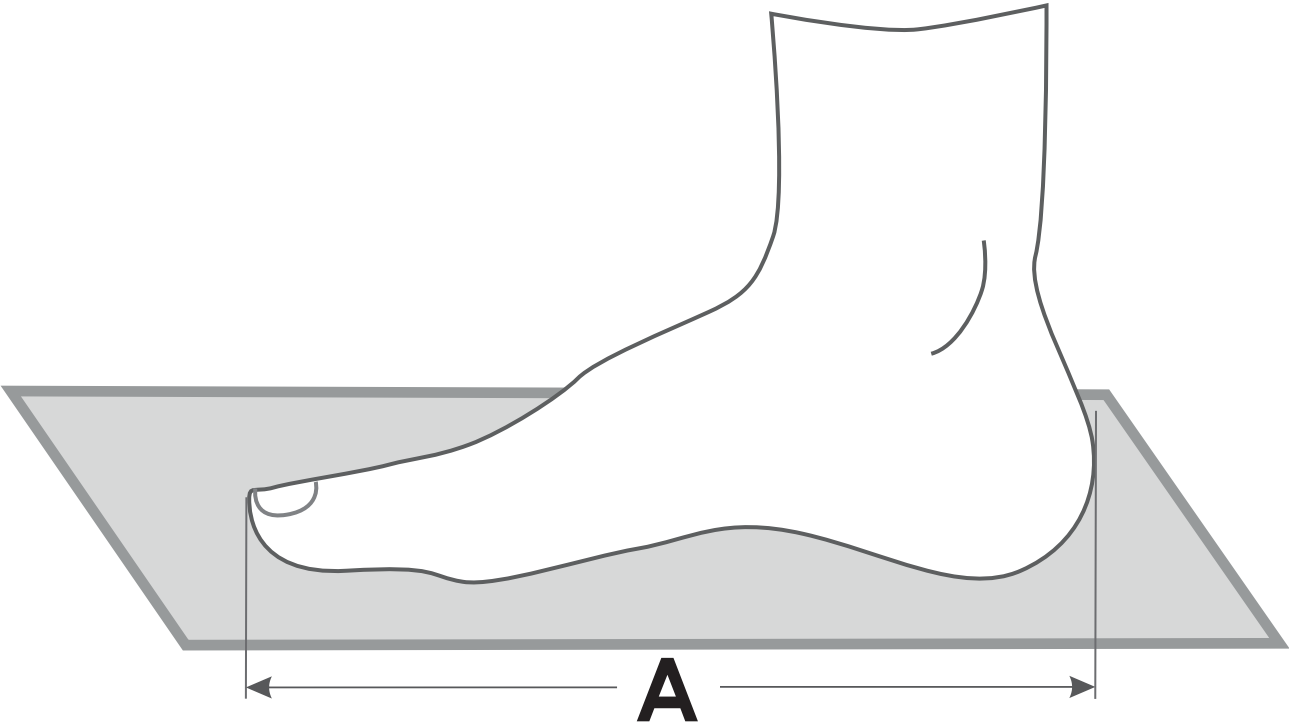

Take all measurements according to your body. Measure accurately, without leaving any allowance.
When designing and producing hunting clothing, we ensure sufficient ease according to your size and the type of garment. If you prefer a looser fit, please choose one size larger.

Important to know

Never rely on global size standards.
Different manufacturers offer different sizes and standards.
If your waist measures 105 cm, and the available pants have a waist of 102 or 108 cm, we recommend choosing the larger size. Most Remington garments feature additional adjusters for a precise fit and maximum comfort.

A	SNG SIZES	39A	39,5B	40	41	41,5	42	42,5	43	44	45	45,5	46	47,5
	US SIZES (CM)	6,5	7	7,5	8	8,5	9	9,5	10	10,5	11	11,5	12	13
	FOOT LENGTH (MM)	245	250	255	260	265	270	275	280	285	290	295	300	310

If you find yourself between two sizes, choose the larger one.
We do not recommend measuring your foot in the morning.
Feet usually swell slightly by evening due to heat and activity.
The best time to measure your foot is in the evening.
